

## LOCAL NEWS.

## MORRISVILLE.

James Parker of Essex Center visited friends in town several days last week.

Send in any items of local interest; always glad to publish all the news when it is new.

W. O. Rocheleau, Geo. Houghton, Clinton Frye and Edwin Gaskell of St. Johnsbury were in town last Wednesday, in attendance upon Lamoille County Fair.

Alton C. Little of Sheldon was in town several days last week, the guest of friends and to attend the Fair.

Mack Terrill, who has been visiting relatives and friends in town for several days, returned to his home in Boston last Saturday.

Mr. and Mrs. Zara Griswold went to Montpelier the first of the week where they will assist in the management of the Union House during the session of the Legislature.

The body of Geo. Ward of Barnet arrived here Saturday. The deceased was a brother of "Chet" Ward of Elmore and the body was taken to that place Monday for burial.

Misses Lena Kipp and Madge Edson, who have been employed at the Randall for several months, left the first of the week for Waterbury, where they have employment. Miss Gladys Thomas of Waterville is now doing table work at the Randall.

Will Schofield, formerly a resident of this place, has been visiting at the home of Elmer Ryder on Laport road for several days. Mr. Schofield is in very poor health, recently returning from California, where he went with the hope of relieving benefit to his health.

A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea. Pleasant to take. Acts promptly.

## Misquotations.

In a letter to The Boston Transcript on the subject of misquotations, a correspondent says: "I have heard many persons quote as from the Bible 'God tempereth the wind to the shorn lamb,' and insist that it is there instead of in 'The Sentimental Journey,' by Sterne. I have in my scrapbook three notable examples of quotations from the Thanksgiving proclamations of the Governors of different states. Governor Bell of Texas began his with 'Now is the winter of our discontent made glorious summer,' in the words of 'Holy Writ.' I once attended a funeral in the country where the clergyman's opening remarks was, 'My bereaved friends, you have loved and lost the deceased. It has been truly said: 'It is impossible to solve the biography of death.' That is, my bereaved friends, the only way for us to look at it.' An acquaintance of mine tells me that Cyrus Burleigh, one of the well-known writers of 25 years ago, told her that he had just come from a Quaker meeting, where he saw a woman speaker rise and with a 'Quaker tone' say, 'A boss, a boss, my kingdom for a boss.' Doubtless, my friends, the inspired Psalmist, when he penned these words, meant a spiritual boss. That was all she said, and she solemnly resumed her place on the high seats.' Oliver Wendell Holmes had a curious collection of misquotations, and also some quaint old hymns. He was fond of quoting one (which he wrote on his card for me at a reception) from an old Scotch hymn, 'Lord, take thine hand from off thy lap and give thy foes a rousing slap.'

## How Long Do Drunkards Live?

More interesting and more remarkable, perhaps than any other disclosures made by Dr. Dana are those relating to the capacity of men for drink, and the duration of life among habitual inebriates. On the latter point the conclusions reached are that in serious cases the duration of life is about fifteen years. In general, it is said, that hard drinking can rarely be carried on for more than twenty years, and it generally brings the victim to grief at about the age of forty. Referring to persons who drink most heavily and frequently, it is said that it takes ten or fifteen years to bring on dementia or insanity, during which time it may be estimated that each inebriate consumes about 2,000 gallons of intoxicants. A man fifty-five years old confessed to Dr. Dana that he had been drunk twice a day for three years, making about 2,000 intoxications; another man of forty had been drunk weekly, for twenty years, and a third, aged forty-three, had been drunk a thousand times in fifteen years. Two thousand "drunks" is set down as the maximum limit in any ordinary inebriate experience. The favorite combination for hard drinkers was found to be beer and whiskey, and beer alone came well up in the scale. Other beverages used by inebriates include cocoa wine, Jamaica ginger, tincture of soap and well-known proprietary "bitters." A remarkable absence of alcohol was found in wine drinkers.—*Leslie's Weekly*.

## Stepped into Live Coals.

"When a child I burned my foot frightfully," writes W. H. Eads of Jonesville, Va., "which caused horrible sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by Slayton & Sanders, 25c.

## HYDE PARK.

Mrs. E. G. Page returned from Boston last Saturday evening.

The Fair brought a large number of visitors to this place last week.

Mrs. Henry Tewksbury of Randolph has been here the past week with her daughter, Miss Mary Tewksbury.

Alba Ferry was called to Craftsbury Sunday by the death of a brother, who had been ill but a few days with pneumonia.

Miss Tewksbury, the L. C. A. preceptress, was out of school a day or two last week because of illness. Her place was filled by Miss Brigham.

C. H. Reed and wife, who have been visiting in this vicinity for several weeks, started for their home in Minnesota last Thursday evening.

Alvah Davison and wife and Master Alvah, Jr., with Miss Ada Lewis, left for their home in New York last Thursday, going via the lakes and Saratoga.

The village trustees had a meeting Saturday evening at which considerable business was transacted. Among that done was the decision to extend the sewer system through Prospect Ave., and the appointment of Dr. W. W. Genge as Health Officer for the village in place of Dr. W. T. Slayton.

The many friends here of Leigh Noyes will be pleased to learn that he has successfully passed all the examinations to the Annapolis Naval Academy, and is to be congratulated upon his success. The examinations were especially severe, both mental and physical, and of the 117 candidates only 32 passed the mental examinations. The examinations were held at Washington, D. C. He will enter at once upon his eight years' enlistment.

## A Protest Against Gambling at Fairs.

September 26, 1902.

EDITOR OF NEWS AND CITIZEN:—After several weeks spent in your country, I am leaving to-day; but before doing so, I desire to record my appreciation of the frank hospitality of your kindly people, and to remark that the villages of Morrisville and Hyde Park are two of the prettiest towns I have been my pleasure to see. I have noted the exceeding great cleanliness of your streets, the well kept lawns, the neatness and beauty of your residences and many places of worship, and have frequently remarked that cleanliness seems to be the paramount virtue of your people and your communities.

Having these impressions of you and your people strongly impressed upon me, I attended your County Fair on Wednesday, at which place my impressions received a staggering blow, as I found that the main attractions and amusements provided for the people consisted of a score of gambling games, any one of which, played openly in any village or town in your State, would place the proprietors in jail instantly.

Although I have lived some forty years and travelled in many States, both North and South, I have attended all the great exhibitions, and various games, have been to scores of places, where the attendance was nearly 10,000, never before have I seen gamblers in charge as at your Fair, where the money was taken from the pockets of patrons, giving them nothing in return. Did I say nothing? I mistake, as many young men had the passion for gambling aroused, by being allowed to win a paltry sum and then be fleeced out of larger amounts; and who can say what the end will be?

For allowing the patrons to be fleeced, the Fair authorities have received, let us say \$500, and for this sum they place in jeopardy the souls of 1000 young men, thus placing on an immortal soul the value of fifty cents!

Ministers and pastors of Lamoille County, have denunciations gone forth from your pulpits on this matter? You who have spent months and years in endeavoring to save one of these souls, what think you of the price placed on them? If you have failed to denounce this iniquity, how can protest be expected from others?

Mothers and fathers, you who have stood over the cradles and cots of your loved ones, and in an agony of soul sent out petitions for their recovery—what think you of this matter? You have endeavored to bring up your loved ones to be good citizens; to follow the straight and narrow way, and will you now submit to having this contaminating influence placed before them and have your boys solicited to gamble, and to do it thus openly? If not, why has no protest gone forth?

It would be idle for me to go further into the matter, as you know the debasing influence of this terrible pastime, and that it is a prison offence in any state, city or town in this great nation, and a blot upon any community which allows it to hold forth its head. Stamp it out as you would a scourge, as no epidemic has ever destroyed the number of souls as has the passion for gambling.

Let not this iniquity stain the fair name of your county, and with its debasing influence overcome and destroy in a few days, all the ideals which you have by years of labor set up for your children, as it is a monster with many heads, and strikes when least expected.

## The Worst Form.

Multitudes are singing the praises of Kodol, the new discovery which is making so many sick people well and making people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red blood that makes you feel good all over. Mrs. Cranfill, of Troy, N. Y., writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat."

## Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching.

"I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run down condition of the system, and have been greatly benefited by its use. I would not be without it in my family. I am troubled especially in summer with weak stomach and nausea and find Hood's Sarsaparilla invaluable." E. E. HICKMAN, W. Chester, Pa.

## Hood's Sarsaparilla and Pills

## Three Typical Americans.

A typical American trio of self-made men was included in one of the parties entertained recently by President Roosevelt at his summer home in Oyster Bay, namely, Senator Pritchard of North Carolina, Congressman William Alden Smith of Michigan and Hon. C. B. Williams, Chairman of the Republican State Committee of Louisiana. Each of these was compelled at an early age to fight the battle for existence and to struggle for success. At twelve years Senator Pritchard was seeking a place on a farm where he could earn his bed and board. Subsequently he became a printer and a master of that art, a publisher, an editor, a political leader and a Senator, and it is to him more than to any other man that the Republican party must now look for leadership in North Carolina. Congressman Smith at the age of twelve was a newsboy in the streets of Grand Rapids, Mich. He has lived to become a successful lawyer and the president of the Grand Rapids Herald Company, whose papers he formally peddled on the streets. Chairman Williams, his father's fortune having been swept away in the Civil War, was glad as a boy to seek a place in the train service of a railroad at the hardest kind of manual work. Mr. Williams is now one of the largest owners of cypress timber and sugar properties in the United States. When he called to pay his respects to President Roosevelt at Washington some time ago, and when the President asked him what he wanted, Mr. Williams replied, "I am making about a thousand dollars a day and I don't think there is any job in your gift that would have inducements for me."

The success achieved by these three distinguished Americans is but the repetition of the story of thousands of others.—*Leslie's Weekly*.

## Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. Its attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquidifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal."

## Look Out For Fever.

Billiousness and liver disorders at this season may be prevented by cleansing the system with DeWitt's Little Early Risers. These famous little pills do not gripe. They move the bowels gently, but copiously, and by reason of the tonic properties, give tone and strength to the glands.

There never has been a great and beautiful character which has not become so by filling well the ordinary and smaller offices appointed of God.

Only one remedy in the world that will at once stop itching of the skin in any part of the body. Doan's Ointment. At any drug store, 50 cents.

It is pitiful when a life, with large possibilities, passes through the period of development with its powers still folded up.

Upright, sturdy, trustworthy character is, more than anything else, indeed more than everything else—the foundation of worldly success.

## Letter to J. F. Thomas.

Morrisville, Vt.

Dear Sir: The house of H. B. Parker, undertaker, in Morris, N. Y., was painted nine years ago with Devco, and is in perfect condition to-day. Mr. Parker's present address is Sherburne, N. Y.

Lead and oil would have had to be at least painted twice before now, as it only wears half as long as Devco lead and zinc.

## Yours truly,

F. W. Devco & Co.

P. S. Geo. W. Doty, Morrisville, and L. M. Jones, Johnson, sell our paint.

## MAKING TACKS.

There are Many Kinds for a Great Variety of Uses.

[Boston Herald.]

A Herald man came up from Brockton the other day and shared a seat with a man whose business is the manufacture of tacks for shoes and other purposes. Naturally they began to talk "shop," and among other things the Herald man learned that the best tacks are made of imported Swedish iron, the next grade of American soft steel and the cheapest grade of common American iron. Tacks are also made of copper. Some tacks are tinned and for ship use tacks are galvanized. Tacks are made of sizes ranging from half-ounce to twenty-four ounce. The tack commonly used as a carpet tack (the ones you get in your bare feet while waiting with the baby at 2 o'clock a. m.) is an eight-ounce tack. A twenty-four-ounce tack is about one and one-eighth inches in length.

There are a great many kinds of tacks, made for a great variety of uses, and they are put up in many different forms. There are gimlet tacks, looking-glass tacks, upholsterers' tacks, trunk tacks, lace tacks, basket tacks, brush tacks, coffin tacks, shank tacks, lasting tacks, miners' tacks, cheesebox tacks, carpet tacks and tacks for a score of other uses. With in the last dozen years the sale of double-pointed tacks has increased a hundred fold, owing to the greatly increased use of electric wires. Double-pointed tacks are also used for tacking down straw matting and for other purposes. Tacks that are sold in papers are put up on full weight, halves and quarters, the weight indicating the size of the package. Almost all kinds of tacks are sold in bulk, in twenty-five and fifty-pound boxes and 100-pound kegs.

A one-ounce tack machine will in a day make about 100,000 tacks. The iron is fed into the machine in a long strip, a little wider than the length of the finished tack, as to allow the material to be upset for the head. An eight-ounce machine will make about 250,000 tacks in a day, or about 200 pounds. Tacks that are put up in papers are weighed out and the papers filled by hand. Comparatively few tacks are put out now in tied-up papers; they are mostly put up in little pasteboard boxes. These boxes are packed in larger boxes, and in turn in case for shipment. A common tack package is a case weighing about 100 pounds. The annual tack production of the country is estimated at about 30,000 tons.

## Banker Route a Robber.

J. R. Garrison, Cashier of the bank of Thornville, Ohio, had been robbed of health by a serious lung trouble until he tried Dr. King's New Discovery for Consumption. Then he wrote: "It is the best medicine I ever used for a severe cold or a bad case of lung trouble. I always keep a bottle on hand." Don't suffer with Coughs, Colds, or any Throat, Chest or Lung trouble when you can be cured so easily. Only 50c and \$1.00. Trial bottles free at Slayton & Sanders' Drug Store.

## Didn't Know Ping-Pong.

The Oak Park girl had just come home from her first ping-pong party. She had never played the game before that evening. When she entered the library her father was folding up his newspaper, preparatory to going to bed.

"Do you know, papa, I discovered to-night that I never really cared about anything before in my life," she said by way of introduction. "I want to tell you about it."

"Yes?" said the old man with rising reflection on the word. He was interested, perhaps even a little startled. His daughters face was serious.

"I have fallen in love with ping-pong."

"What!" exclaimed pater familias. His dismay now was unmistakable. Just then his wife entered the room. He turned indignant eyes upon her.

"You are a nice woman!" he shouted at her. "What do you mean, madam, by bringing up your daughter the way you have done. No don't interrupt—it's matter enough. Owning to your skillful management our little girl has lost what sense she was born with. She has fallen in love with a Chinaman!"

Five minutes later the old gentleman was apologizing both to his wife and his daughter. As he went off to bed however, he muttered under his breath:

"Ping-pong, ping-pong! That's a nice name for a game."—*Chicago Record-Herald*.

## Forty Years' Torture.

To be relieved from a torturing disease after 40 years' torture might well cause the gratitude of anyone. That is what DeWitt's Witch Hazel Salve did for C. Haney, Geneva, O. He says: "DeWitt's Witch Hazel Salve cured me of piles after I had suffered 40 years." Cures cuts, burns, wounds, skin diseases. Beware of counterfeits.

## What's Your Face Worth?

Sometimes a fortune, but never if you have a sallow complexion, a jaundiced look, moth patches and blotches on the skin,—all signs of Liver Trouble. But Dr. King's New Life Pills give Clear Skin, Rosy Cheeks, Rich Complexion. Only 25c at Slayton & Sanders' Drug Store.

## MATCHES USE UP FORESTS.

Immense Quantities of Timber are Required in the Lucifer Trade.

In the United States alone some 4,000,000 feet of pine lumber are used every year for matches, or the equivalent of the product of 400 acres of good virgin forest. About 620,000,000 cross ties are now laid on American railroads and 90,000,000 new ties are required annually for renewals. The amount of timber used every year for ties alone is equivalent to 3,000,000,000 feet of lumber. There are now standing nearly 7,500,000 telegraph poles. The average life of a telegraph pole is about ten years, so that nearly 750,000 new poles are required every year for renewals. These figures do not include telephone poles and the poles required on new railroad lines.

The total annual consumption of timber for ties and poles is equivalent to the amount of timber grown on 100,000 acres of good virgin forest. For making shoe pegs the amount of wood used in a single year is equal to the product of fully 3,000 acres of good second-growth hardwood land. Lasts and boot trees require at least 500,000 cords more. Most newspaper and packing paper is made from wood. Although this industry has been developed only within the last forty years, yet the amount of wood consumed for paper during that time has been enormous. The total annual consumption of wood for paper pulp is equivalent to over 800,000,000 board feet of timber, for which it would be necessary, were the trees all growing together, to cut some 80,000 acres of prime woods.—*Chicago Chronicle*.

## A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at Slayton & Sanders' Drug Store.

## Notes.

Delight in God's house is delight in God's presence. We cannot love the house of God without first loving the God of the house.

All the cork used in the world in a year weighs just over 1,000 tons. It comes from France, Spain, Portugal, Italy and North Africa.

The biggest nugget of tin on record has been found at North Dundas in Tasmania. It weighs 5,400 pounds and is 67 per cent pure tin.

British ships carry 52.45 per cent of all the imports into the United States and nearly 43 tons out of every 100 that enter Russian ports.

Vacation is not the main purpose of any true life. The purpose is work, and times of rest are set in amid the busy days, that we may keep strong.

London is introducing new water troughs for thirsty horses, at which the water can be run off by touching a push-button and fresh water run in.

Emerson used to say that "Trouble is as good as anything else, if you only have enough of it." It is the heroic dose that makes life altogether wholesome.

Only one marble statue of the human figure with eyeglasses is known. It is one of the gems of Vatican, the "Sleeping Ariadne," and was discovered in 1503.

To think the right thoughts and do the right acts requires wisdom that only cometh from above. And it will be well for us if we can have copious showers of it.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

## His Stock in Trade.

Conversation became reminiscent at the Lawyers' club the other day, the late Judge James T. Brady being the subject. A veteran practitioner who knew him well said:

"Brady's first attempt at practicing law was in very humble quarters in the rear of a cobbler's shop in Fulton street, near William. One day an Irishman who called and inquired for the cobbler was told by Brady that he was out. Peering about the room of the newly fledged lawyer, scantily furnished with two unpainted chairs and deal table, he inquired:

"I say, boss, what do you sell here?"

"Blockheads," promptly replied Brady.

"Humph!" said the Irishman. "Must be doing a good business, as I see you have only one left."—*New York Times*.
